Invitation Letter

The Faculty of Geoinformatics, University of West Hungary as the basic educational higher institution permanently collects knowledge about the surveying, photogrammetry, geoinformatics, cadastre related development and good practices on these fields. For the quick dissemination of these experiences the "GISopen Conference" was founded in 1997, and organized annually for the benefit of the Cadastre and Surveying community.

The topic of the conference changes each year. In 2014 the motto of the conference is: "Frames – Technologies – Experiences – Tasks ". The organizers will welcome presentations in connection of implementation of legal systems, land law, GIS/LIS, land administration, land management. The language of the conference is Hungarian, but there will be English language sessions on the 2nd day. It will be a good opportunity to learn best practice from all over Europe. The papers presented will be published in electronic formats.

Venue: Székesfehérvár, Pirosalma street 1-3.
Date: 15-17 April 2014
Website: <http://www.geo.info.hu/gisopen/2014/>

We kindly invite you to take part on our conference. The participation is free of charge for you and one of your colleagues, the accommodation is also will be provided by us. If other colleagues from your institute are also interested on the conference, for them the registration fee is 50 EUR.

Waiting for your positive answer,

yours sincerely

Dr. Gábor Mélykúti
dean
